Profile Summary

A programmer with over 5 years of experience specializing in both Backend and Frontend development using Java, JSP (JavaServer Pages), and Spring Boot. Passionate about coding since my studies, I have delivered high-quality solutions for complex projects including medical data management and HR management systems. I am also skilled at consulting and resolving technical challenges for the team.

Work Experience

Sr. Programmer | Entronica Co., Ltd. (May 2024 – Present)

- Developer Role: Designed and developed Backend services using Java Spring Boot for new system builds and API development.
- Backup Consultant Role: Served as technical advisor to the team, analyzing complex problems and accelerating issue resolution to improve overall team performance.

Project Management Office | INTERNATIONAL RESEARCH CORPORATION (November 2023 – April 2024)

- Oversaw program delivery timelines and enforced strict quality checks on all deliverables.
- Coordination Role: Acted as a liaison between vendors and clients to ensure smooth project progression on both sides, significantly reducing the risk of project delivery delays.

Full Stack Web Developer | myHR Corporation Limited (June 2021 – November 2023)

- Primary Role: Developed and designed a Full Stack HRM (Human Resource Management) system covering both Backend and Frontend.
- System & Database Design: Collaborated closely with the Presale team to gather requirements, improve the system for clients/users, conduct initial UX/UI design, and maintain database architecture for optimal system performance.
- Technology & Frameworks: Built with JSP (JavaServer Pages), AngularJS, and JavaScript alongside an in-house MVC framework (CSCframework) using Java and XML for database structure and model definitions bridging Frontend and Backend.

Programmer | Supreme Products Co., Ltd. (December 2018 – May 2021)

- **System Design & Client Management:** Participated in UX/UI design, database design and administration, and gathered on-site client requirements to ensure the system met real-world usage needs.
- **Ambulance Camera Viewer:** Developed a real-time system displaying critical device data such as cameras, GPS, and vital signs, enabling medical teams to assess situations accurately and rapidly (C#/.NET Framework).
- **Patient Queue System:** Built a patient queue management system with priority ordering and audio announcement to reduce patient wait times.
- **Tele Pharma Platform:** Developed a video-call platform for pharmacists to exchange patient and medication data between hospitals, enabling accurate and timely pharmaceutical consultation.
- **EMS Bot & Chatbot System:** Developed a video-call communication program and automated chatbot system (text and voice) to expand user communication channels and reduce staff workload.

Administrative Officer / IT Support | Thonburi Commercial College (May 2017 – November 2018)

- Provided IT Support for 6 months before transitioning to research administration and official documentation management, developing strong document management and data administration skills.

Loan Officer | Thai Credit Retail Bank (March 2016 – April 2017)

- Advised clients on loan products and managed debt portfolios, gaining experience in client communication, persuasion, and relationship management.

Technical Skills

- **Expert:** Java, JSP (JavaServer Pages), JavaScript, HTML5, CSS, Bootstrap
- **Intermediate:** Spring Boot, C#/.NET Framework, React
- **Basic:** Python, NET Core MVC, AngularJS, React Native
- **Database:** SQL, MySQL, PostgreSQL, Oracle
- **Tools:** Git, Adobe Photoshop, Adobe Illustrator (for UX/UI design)

Soft Skills

- **Problem-Solving & Consulting:** Quickly analyzes complex issues and provides effective technical consultation to the team (Sr. Programmer level).
- **Communication & Client Management:** Outgoing with strong interpersonal skills; experienced in persuasion and building client relationships.
- **Work Attitude:** Fast learner, calm under pressure, continuously self-improving.

Education

- Bachelor's Degree (2016–2018): Information Systems | Rajamangala University of Technology Phra Nakhon
- High Vocational Certificate (2014–2016): Business Computer | Thonburi Commercial College
- Vocational Certificate (2011–2014): Business Computer | Thonburi Commercial College
- Lower Secondary (2008–2011): Photisarnpittayakorn School
